

2023-2024 Writing Programs

All programs emphasize on learning with the growth mindset. Students are taught to appreciate reading and writing and are encouraged to build confidence and motivation to establish habits and discipline for self-learning. Emphasis is placed on making progress and setting goals.

At the beginning of the program, we:

- ✓ assess each student to determine their current baseline.
- ✓ set realistic milestones and goals to where the student wants to be.
- ✓ work with each student to create a timeline to work towards goals.

Throughout the program, we:

- ✓ conduct “check-ins” and provide feedback to students and families.
- ✓ revisit with students to establish new goals relevant to their progress.

Class Options

Weekly online: small group (1:3)

Weekly in-person (Vancouver, BC): small group (1:3)
